Preliminary fringe benefit rates for FY 23 have been calculated and delivered but have not been negotiated with the Department of Health and Human Services (DHHS). The FY 23 rates were reviewed by senior leadership. The fringe rates (shown below) should be used for budgeting and long-range planning purposes. A notification will be sent as soon as the FY23 rates have been approved by DHHS.

Notes:
1) The “Federal” rates will be used for federal grants and contracts, Duke Regional Hospital (Co 0050), Duke Raleigh Hospital (Co 0060), and Associated Health Systems (Co 0051). The differentiation between Federal and Non-Federal mainly reflects elimination of participation and reimbursement of the child tuition grant benefit program for the afore-mentioned entities and funding sources.
2) The “Non-Federal” rates will be used for all other entities including non-federal grants, contracts, departments, etc.

This announcement will soon be on the Duke Finance web page at https://finance.duke.edu/resources/docs.php#fringe. Please distribute this information as appropriate.
