Use Other Report Functions

1. To **export** or **print** the report, use the respective buttons and follow the steps outlined in the Reporting Functions section of this guide.

   **Note:** *Currently, the only web browser that fully supports the printing of this report is Internet Explorer. Other web browsers will not print all columns and rows of this report.*

2. To **adjust the display options** for the report, **right click anywhere** in the body of the report, follow the menu path **User Settings → More** and follow the steps outlined in the **Reporting Functions** section of this guide.
